AM

EXPERIENCE

Mobile Application Developer (Flutter-android)

AlBadr

📅 Jun / 2021 - now 📍 SAMANOUD/ **EGYPT**

- Experienced in developing and maintaining mobile applications using Flutter and Android with Java and Kotlin. Proficient in integrating APIs, Firebase, Retrofit, RxJava, MVVM, clean architecture, Databinding, and Notifications into app development. Demonstrated expertise in utilizing the Google Maps API to implement location-based services, and integrating video and voice chat functionalities using WebRTC and Jitsi.
- Specialized in developing e-commerce applications with a strong emphasis on user experience and UI design. Adept at collaborating with cross-functional teams, including product managers and designers, to deliver high-quality mobile applications. Skilled in Continuous Integration and Continuous Deployment (CI/CD) processes.

Android Developer

MBN

📅 Mar 2020 - May 2020 📍 Giza / **EGYPT**

- Developed three applications (Judo, Corona, and D2020).
- Used Dagger2, Java, Kotlin, Firebase, Retrofit, RxJava, MVVM, Databinding, Notifications, and Google Maps.

Android Developer

Middle East Group

📅 Apr 2019 - Dec 2019 📍 cairo/ **EGYPT**

- Developed two Android applications using Java and Kotlin.
- Utilized Firebase for push notifications (FCM), Volley for network communication, and Google Maps API for location-based services.
- Managed code using GitHub and implemented ButterKnife for view binding.

ANDROID DEVELOPER INTERN

EPDA3 TECH

📅 Jan 2019 - Apr 2019 📍 mansoura / **EGYPT**

- Developed two applications (Blood Bank, Sofra).
- Skilled in Firebase Cloud Messaging (FCM), Volley, Google Maps API, and ButterKnife.
- Managed code using GitHub.
